Research findings and dissemination are making healthcare more effective. Electronic health records systems and advanced tools are making care delivery more efficient. Legislative reforms are striving to make care more affordable. Efforts still need to be focused on making healthcare more accessible. Clinical Videoconferencing in Telehealth takes a comprehensive and vital step forward in providing mental health and primary care services for those who cannot make traditional office visits, live in remote areas, have transportation or mobility issues or have competing demands. Practical, evidence-based information is presented in a step by step format at two levels: for administrators, including information regarding selecting the right videoconferencing technology, navigating regulatory issues, policy templates, boilerplate language for entering into care agreements with other entities and practical solutions to multisite programming; and for clinicians, including protocols for safe, therapeutically sound practice, informed consent and tips for overcoming common technical barriers to communication in clinical videoconferencing contexts. Checklists, tables, templates, links, vignettes and other tools help to equip professional readers for providing safe services that are streamlined and relevant while avoiding guesswork, false starts and waste. The book takes a friendly-mentor approach to communication in areas such as: Logistics for administrators: Clinical videoconferencing infrastructures and technologies Policy development, procedures and tools for responsible and compliant programming Navigating issues related to providing services in multiple locations Protocols for clinicians: The informed consent process in clinical videoconferencing Clinical assessment and safety planning for remote services Minimizing communication disruption and optimizing the therapeutic alliance Clinical Videoconferencing in Telehealth aptly demonstrates the promise and potential of this technology for clinicians, clinic managers, administrators and others affiliated with mental health clinical practices. It is designed to be the comprehensive "one-stop" tool for clinical videoconferencing service development for programs and individual clinicians.

Bulletin of Comparative Labour Relations Volume 108 The progressive expansion of the phenomenon of posting of workers – the practice whereby a worker is sent for a limited period of time to another Member State in order to provide a service – is a formidable bone of contention in the conflict between a fully integrated internal market economy and Member States' aims to protect domestic social standards. This book challenges the recently adopted Directive (EU) 957/2018, which came into effect in July 2020, by examining the relevant EU regulatory framework and investigating the actual quantitative dimension of the posting phenomenon and its real impact on the EU labour market. In the process, the author exposes a serious misalignment of the legal framework provided for by the new Directive with the EU values and principles of equality, solidarity and fair competition. Drawing on a wide variety of sources – including Court of Justice case law, Advocate Generals' opinions, Eurostat data, Commission documents and reports, and academic literature – the author provides in-depth analyses of such elements of the problem as the following: proper definition of the concepts of 'posting' and 'posted worker' in EU law; host country's discretion in relation to the part of domestic regulation it can impose on posted employees; misconceived clash between social rights and economic freedoms; coordination of national social security systems; proliferation of unlawful and fraudulent practices; 'regime shopping' and exploitation of existing regulatory loopholes; misleading association of posting with issues of 'social dumping' and 'unfair competition'; orientation of political influence during the drafting process of relevant EU legislation; expected controversial economic impact of Directive (EU) 957/2018; concrete realisation of the EU values and principles of equality, solidarity and fair competition; and definition and pursuit of a 'European social model'. Normative arguments developed in the course of the analysis put forward viable recommendations for future improvements in the field. The Union's commitment to the development of a 'European social model' cannot avoid taking into account the matters of equality, solidarity and fair competition. In this sense, given the increasing prominence of the free movement of services in shaping a European labour market characterised by an ever-growing degree of mobility, this book's analysis of the phenomenon of posting of workers may serve as a litmus test of political and legislative action at EU level. In its dual analytic and normative aspect, the book takes a giant step towards future discussions and developments in the area of intra-EU labour mobility. It will be welcomed by legal practitioners in labour and social security law and industrial relations, legal scholars, EU institutions and agencies, businesses and trade unions.

Since the late 1960s, the novels of Sjöwall and Wahlöö's Martin Beck detective series, along with the works of Henning Mankell, Håkan Nesser and Stieg Larsson, have sparked an explosion of Nordic crime fiction—grim police procedurals treating urgent sociopolitical issues affecting the contemporary world. Steeped in noir techniques and viewpoints, many of these novels are reaching international audiences through film and television adaptations. This reference guide introduces the world of Nordic crime fiction to English-speaking readers. Caught between the demands of conscience and societal strictures, the detectives in these stories—like the heroes of Norse mythology—know that they and their world must perish, but fight on regardless of cost. At a time of bleak eventualities, Nordic crime fiction interprets the bitter end as a celebration of the indomitable human spirit.

The idea for this book is derived from the scantiness of academic references on the European Union's policies towards the Black Sea, relative to this region's officially stated significance for the EU. Even though the EU plays a vital role in Black Sea political agendas, the EU's cooperation with the region is not extensively covered by academic discussions and literature. This is mostly due to the fact that the EU's focus on foreign affairs is mainly associated with the Balkans, as part the current and potential expansion, and the Middle East, as a direct consequence of the upheaval of the Arab Spring. The Black Sea region is crucially important for the EU because of the opportunities and challenges that the region presents, both politically and socio-economically. Contributions to this book mostly focus on specific issues of EU–Black Sea cooperation, from conflict to the environment to democracy, and how these particular relationships are perceived within the region as well as through the lenses of stakeholders such as Russia, Turkey, and the USA. Overall, the collection focuses on projecting a more efficient role and a holistic strategy for the EU in its approach towards the Black Sea region, testifying to the need for a strong EU presence. For this reason, the Black Sea area remains 'the neighbourhood too close to, yet still far from, the European Union'. This book was originally published as a special issue of the Journal of Balkan and Near Eastern Studies.

Indonesia is the fourth most populous country in the world after China, India and the United States. It is also the world's largest Muslim majority country and the third largest democracy. Its economy is currently the 10th largest on the global scale. Indonesia is recognized as an emerging power, and a respected member of the international community. It plays an important role not only in the Asia-Pacific region, but also in the world at large. Indonesia has defied the grim predictions about its imminent collapse following the ouster of Suharto in 1998. Its ability to rebuild and reinvigorate itself into its current status is one of the most impressive stories of the late 20th and early 21st century. Its journey since the fall of Suharto is inspiring at a time when the world has seen many falling nations, recurring economic crises, and growing radicalism and terrorism. Yet, the Indonesian story receives far less attention than the BRICS (Brazil, Russia, India, China, and South Africa). The Indonesian story suggests a different pathway to emerging power status. This pathway is based not so much on military or economic resources. Rather, it lies in the ability of a country to develop a positive, virtuous correlation among three factors: democracy, development and stability, while pursuing a foreign policy of restraint towards neighbours and active engagement with the world at large. This is the key lesson from the story of Indonesia that this book seeks to present. It analyses Indonesia's foreign policy and international role under the democratic regime, with particular focus on its role as a leader of ASEAN, its relationship with the major powers of the Asia Pacific, and its place in the global order of the 21st century. Contents:Why Indonesia Matters/Democracy, Development and Stability: Creating a Virtuous Cycle/Indonesia and the Regional Architecture/Indonesia and the Major Powers/Indonesia as a Global Actor/Nation on the Move: Indonesian Voices Readership: General public, students, policy makers, and think tanks intellectuals. Key Features:First book that recognizes Indonesia as an emerging powerFirst book in a long time on overall Indonesian foreign policyAmong the first to study impact of democratization on foreign policy of IndonesiaKeywords:Indonesia;Rising Powers;ASEAN;Asia Pacific SecurityReviews: "Indonesia today offers an inspiring example of how democracy, development and stability can be made to work together to advance a nation's prestige and influence on the global stage. Amitav Acharya's Indonesia Matters is an insightful account of the foreign policy of the world's largest Muslim country, demonstrating how democratic transformation strengthened Indonesia's leadership in ASEAN, the Asia Pacific, and the world at large." Surin Pitsuwan Former Foreign Minister of Thailand and Secretary-General of ASEAN (2008–12) "Can a major new power rise in the community of nations without threatening its neighbours, destabilizing existing arrangements, and producing an arms race? This is a major question for this century, after the past one in which Germany and Japan established such alarming precedents. China and India do not provide much reassurance that we are wiser than we were. Indonesia, however, with one of the lowest arms expenditures in the world either per capita or in relation to GNP looks a promising case for an alternative model. This book is a very timely study of a critical issue for our times." Anthony Reid Emeritus Professor College of Asia and the Pacific Australian National University "Amitav Acharya has produced a timely and illuminating examination of Indonesia's foreign policy since the establishment of democracy after Suharto's period in power. Drawing on extensive interviews and keen observations, Amitav skillfully traces the evolution of Indonesia's diplomacy from its regional role to the rarefied world of global engagement. This is an important book and a necessary read for all those who follow Indonesia's remarkable ascent." Kurt Campbell Assistant Secretary of State for East Asian and Pacific Affairs (2009–13) "Acharya has provided an excellent contribution in the discourse on Indonesia's foreign policy. He has shown the unique pathway of the country in achieving its current place in regional and global politics through the virtuous cycle of democracy, development, and stability." The Indonesian Quarterly

From the work of work to the nature of our closest relationships, how do we understand the links between our personal troubles and wider public issues in society today? Now into its fourth edition, Public Sociology continues to highlight the relevance of a grounded sociological perspective to Australian social life, as well as encouraging students to apply a sociological gaze to their own lives and the communities in which they live. Public Sociology presents a wide range of topics in a user-friendly and accessible way, introducing key theories and research methods, and exploring core themes, including youth, families and intimate relationships, class and inequality and race and ethnic relations. All chapters have been extensively revised to bring them up to date in a fast-changing social world, reflecting the latest sociological debates in response to changing lifestyles and evolving political landscapes. In addition to updated statistics and research findings, an expanded glossary and the latest citations to the scholarly literature, the text features a completely new chapter on gender and sexualities with expanded discussion of LGBTIQ+. This new edition also explores contemporary issues ranging from the #MeToo movement to marriage equality, fake news and 'alt facts'. This is the essential sociological reference to help students make sense of a complex and challenging world. NEW TO THE FOURTH EDITION: * A new chapter on gender and sexualities and expanded discussion of intersectionality * Exploration of the latest social issues including #MeToo, rising inequality, and the 'post-truth' age * All chapters thoroughly revised and updated with the latest research * Updated book website with extra readings, YouTube clips, and case studies * A new feature, Visual Sociology, helps the reader analyse the power of visual messaging *With a firm base in the richest traditions of the discipline and with a remarkably approachable format, this book offers an excellent introduction to a wide array of sociology's concerns, making it suitable for all Australian social science undergraduates." Gary Wickham, Emeritus Professor of Sociology, Murdoch University "A sophisticated yet accessible introduction to social identities, differences and inequalities, and social transformations." Jo Lindsay, Professor in Sociology, Monash University "Sweeping and lucid...communicates with ease and simplicity." Toni Makkai, Emeritus Professor, College of Arts and Social Sciences, Australian National University

Debates on the end-of-life controversy are complex because they seem to hijack national and cultural traditions. Where previous books have focused on ideological grounds, The Politics of Intimacy explores dying as the site where policies are negotiated and implemented. Intimacy comprises the emotional experience of the end of life and how we acknowledge it—or not—through institutions. This process shows that end-of-life controversy relies on the conflict between the individual and these institutions, a relationship that is the cornerstone of Western liberal democracies. Through interviews with mourners, stakeholders, and medical professionals, examination of media debates in France and the Czech Republic, Dumová shows that liberal institutions, in their attempts to accommodate the emotional experience at the end of life, ultimately fail. She describes this deadlock as the "politics of intimacy," revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience.
