This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

The Jaguar XK8 was launched to great acclaim in 1996 as the successor to the XJS, and the model range has been built on ever since. With styling cues taken from the E-type and the XJ220 supercar, and powered by a new 4.0-litre V8 engine, the XK8 found instant success on both sides of the Atlantic. Nearly 10 years after its launch, the styling remains virtually unchanged, which says a lot for the original concept. This fascinating, all-color book is essential reading for all XK8 owners and enthusiasts.

It was code-named X100 and it was to be Jaguar's latest sports cars, featuring both coupe and convertible coachwork. It was to have an all-new V8 engine and it was to replace the XJS. It would also ultimately have the most powerful forced-induction engine of any production Jaguar road car and it had a lot riding on its success. It was the XK8 - a sleek, purposeful grand tourer in the Jaguar tradition. Graham Robson, one-time Jaguar apprentice and a motoring historian with several other Jaguar books to his credit, tells the story of one of the twentieth century's most beautiful sports car, from its conception to the end of the line for both it and the factory it was built in.
