Berbeda dengan buku Bahasa Inggris lain yang memberikan penekanan kepada penguasaan kosakata, buku ini disusun dengan pendekatan komunikatif. Karena alasan itu pula unit conversation, wordlist, conversation activity, grammar focus, dan excercise, disertakan dalam setiap bab dalam buku ini. Dengan demikian, baik konten maupun sistematika buku ini memang dibuat agar para pengguna mendapatkan pengalaman mempraktikkan dengan tepat kosakata yang mereka kuasi di berbagai situasi. Terbagi dalam tiga bagian besar, bagian pertama buku ini terdiri dari uni 1-20 yang mencakup berbagai hal dalam keseharian, seperti: ucapan selamat, perkenalan diri dan memperkenalkan orang lain, berterima kasih, meminta izin, dan berbagai hal lain yang berkaitan dengan percakapan sehari-hari. Di bagian ke dua yang berupa unit 21, fokus pembahasannya adalah penggunaan kosakata yang ada dalam pertemuan dan pidato. Adapun bagian penutup, unit 22, dikhususkan untuk pembahasan tentang berbagai kategori perbendaharaan kata sebagai pendalaman pemahaman dengan seluruh unit yang ada dan mempermudah pembuatan kalimat dalam percakapan. ----- Penerbit Kencana (Prenadamedia Group)

Update: Sekarang tersedia metode pembayaran dengan pulsa! Caranya buka Play Store, pilih Akun Saya (My Account), pilih Metode Pembayaran (Add Payment Method), tambahkan Bill Carrier & nantinya akan dipotong dari pulsa ditambah 10 % persen harga. Social Problems: An Introduction to Critical Constructionism, Fifth Edition, synthesizes conflict theory and social constructionism to help students think critically about social problems. A concise, student-friendly alternative to all-encompassing standard textbooks, this book examines a single theoretical paradigm in depth, demonstrating how theory can be used to understand a range of critical social issues.

Setiap buku juga berisi konten ilustrasi dan games Matematika.

Cultural heritage is one of the most important tourism resources in the world. This book provides a comprehensive theoretical overview and applied knowledge of the issues, practices, current debates, concepts and management concerns associated with cultural heritage-based tourism. The second edition has been updated to include timely and emerging topics such as geopolitics, conflict, solidarity tourism, overtourism and climate change. It also expands on important areas such as environmental change, technology, social media, heritage economics, Indigenous knowledge and co-created experiences. This edition includes up-to-date data, statistics, references, case material, figures and pedagogical tools. It remains an important and accessible text for undergraduate and postgraduate students of cultural and heritage tourism, cultural resource management, and museum management.

Electronic voting is often seen as a tool for making the electoral process more efficient and for increasing trust in its management. Properly implemented, e-voting solutions can increase the security of the ballot, speed up the processing of results and make voting easier. However, the challenges are considerable. If not carefully planned and designed, e-voting can undermine the confidence in the whole electoral process. Technology upgrades in elections are always challenging projects that require careful deliberation and planning. Introducing e-voting is probably the most difficult upgrade as this technology touches the core of the entire electoral process:the casting and counting of the votes. E-voting greatly reduces direct human control and influence in this process. This provides an opportunity for solving some old electoral problems, but also introduces a whole range of new concerns. Consequently, e-voting usually triggers more criticism and opposition and is more disputed than any other information technology application in elections. This Policy Paper outlines contextual factors that can influence the success of e-voting solutions and highlights the importance of considering these factors before choosing to introduce new voting technologies.
