The Ninja Meerkats compete for the title of Ultimate Dragon Warrior on Dragon Island, while the Ringmaster has an evil plan.

All aboard with the Berenstain Bears in this adventurous addition to the classic New York Times bestselling series! The Bears are on a steam train trip across Bear Country. Mama and Papa enjoy the scenery, but the cubs want to learn about the train. If they are lucky, Grizzly Jones might let them blow the whistle. Woo-hoo! Beginning readers will feel like they are on board with the Bear family as they pass new sights and find out all about how the train runs. The Berenstain Bears: All Aboard! is a Level One I Can Read book, which means it's perfect for children learning to sound out words and sentences.

When Peter, Archie, and Louie see the pile of wood, they think it's just a big mess. But when Amy and Lily look at it, they see a clubhouse waiting to be built. Louie's father says that one man's trash is another man's treasure. Is he right?

Car keys have developed from the simple systems which were no more advanced than the front door key of a house to very advanced forms that use onboard computers for their operation. Modern vehicles also have push button remote locking/unlocking, it is rare these days to push your Car Key into the barrel to open it. Most cars now use Remote Control Keys to open. These improvements in the Car Keys Systems, has however made it difficult for genuine car owners to duplicate their Car keys or get a replacement when they lose them. The process requires specialize skills and knowhow for even a regular locksmith. This book has therefore been written to inform and guides anyone who wants to develop the skills required to duplicate or replace keys of modern cars.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The 1-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
