A New York Times Editors Choice Selection A global sensation, Kim Jiyoung, Born 1982 "has become...a touchstone for a conversation around feminism and gender" (Sarah Shin, Guardian). One of the most notable novels of the year, hailed by both critics and K-pop stars alike, Kim Jiyoung, Born 1982 follows one woman's psychic deterioration in the face of rampant misogyny. In a tidy apartment on the outskirts of Seoul, millennial "everywoman" Kim Jiyoung spends her days caring for her infant daughter. But strange symptoms appear: Jiyoung begins to impersonate the voices of other women, dead and alive. As she plunges deeper into this psychosis, her concerned husband sends her to a psychiatrist. Jiyoung narrates her story to this doctor—from her birth to parents who expected a son to elementary school teachers who policed girls' outfits to male coworkers who installed hidden cameras in women's restrooms. But can her psychiatrist cure her, or even discover what truly ails her? "A social treatise as well as a work of art" (Alexandra Alter, New York Times), Kim Jiyoung, Born 1982 heralds the arrival of international powerhouse Cho Nam-Joo.

The book is the volume of "The History of Customs in Song, Liao, Jin and Xixia Dynasty" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600–1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070–1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046–256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the

following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or "emperor" of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC - 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644-1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood - the most recent being the Chinese Civil War (1927-1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.

And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. In the years leading up to and directly following rapprochement with China in 1992, the South Korean government looked to ethnic Korean (Chosŏnjok) brides and laborers from northeastern China to restore productivity to its industries and countryside. South Korean officials and the media celebrated these overtures not only as a pragmatic solution to population problems but also as a patriotic project of reuniting ethnic Koreans after nearly fifty years of Cold War separation. As Caren Freeman's fieldwork in China and South Korea shows, the attempt to bridge the geopolitical divide in the name of Korean kinship proved more difficult than any of the parties involved could have imagined. Discriminatory treatment, artificially suppressed wages, clashing gender logics, and the criminalization of so-called runaway brides and undocumented workers tarnished the myth of ethnic homogeneity and exposed the contradictions at the heart of South Korea's transnational kin-making project. Unlike migrant brides who could acquire citizenship, migrant workers were denied the rights of long-term settlement, and stringent quotas restricted their entry. As a result, many Chosŏnjok migrants arranged paper marriages and fabricated familial ties to South Korean citizens to bypass the state apparatus of border control. *Making and Faking Kinship* depicts acts of "counterfeit kinship," false documents, and the leaving behind of spouses and children as strategies implemented by disenfranchised people to gain mobility within the region's changing political economy.

Mother-daughter relationships can be wonderful and powerful. They can also be stressful, challenging, and painful; yet they are often delicate and tender. After losing her mother, Kim shares that strengthening her own mother-daughter relationship was more important than ever. Kim's and Lee's personal reflections in this book from family, to real life challenges, to faith, are attempts to open the dialogue between family members and communities. They share some of their vulnerabilities and pains in hopes that this kind of sharing will encourage others to engage in similar intimate dialogue.
