'It doesn't matter. I have books, new books, and I can bear anything as long as there are books.' Fifteen-year-old Morwenna lives in Wales with her twin sister and a mother who spins dark magic for ill. One day, Mori and her mother fight a powerful, magical battle that kills her sister and leaves Mori crippled. Devastated, Mori flees to her long-lost father in England. Adrift, outcast at boarding school, Mori retreats into the worlds she knows best: her magic and her books. Winner of the 2011 Nebula Award for Best Novel Winner of the 2012 Hugo Award for Best Novel Startling, unusual, and yet irresistably readable, Among Others is at once the compelling story of a young woman struggling to escape a troubled childhood, a brilliant diary of first encounters with the great novels of modern fantasy and SF, and a spellbinding tale of escape from ancient enchantment. Raised by a half-mad mother who

dabbled in magic, Morwenna Phelps found refuge in two worlds. As a child growing up in Wales, she played among the spirits who made their homes in industrial ruins. But her mind found freedom and promise in the science fiction novels that were her closest companions. Then her mother tried to bend the spirits to dark ends, and Mori was forced to confront her in a magical battle that left her crippled--and her twin sister dead. Fleeing to her father whom she barely knew, Mori was sent to boarding school in England--a place all but devoid of true magic. There, outcast and alone, she tempted fate by doing

Combining elements of autobiography with flights of imagination in the manner of novels like Jonathan Lethem's *The Fortress of Solitude*, this is potentially a breakout book for an author whose genius has already been hailed by peers like Kelly Link, Sarah Weinman, and Ursula K. As any reader of Jo Walton's *Among Others* might guess, Walton is both an inveterate reader of SF and fantasy, and a chronic re-reader of books. In 2008, then-new science-fiction mega-site Tor.com asked Walton to blog regularly about her re-reading—about all kinds of older fantasy and SF, ranging from acknowledged classics, to guilty pleasures, to forgotten oddities and gems. These posts have consistently been among the most popular

features of Tor.com. Now this volumes presents a selection of the best of them, ranging from short essays to long reassessments of some of the field's most ambitious series. Among Walton's many subjects here are the Zones of Thought novels of Vernor Vinge; the question of what genre readers mean by "mainstream"; the underappreciated SF adventures of C. J. Cherryh; the field's many approaches to time travel; the masterful science fiction of Samuel R. Delany; Salman Rushdie's *Midnight's Children*; the early Hainish novels of Ursula K. Le Guin; and a Robert A. Heinlein novel

Or What You Will is an utterly original novel about how stories are brought forth from Hugo, Nebula, and World Fantasy Award-winning author Jo Walton. He has been too many things

to count. He has been a dragon with a boy on his back. He has been a scholar, a warrior, a lover, and a thief. He has been dream and dreamer. He has been a god. But "he" is in fact nothing more than a spark of idea, a character in the mind of Sylvia Harrison, 73, award-winning author of thirty novels over forty years. He has played a part in most of those novels, and in the recesses of her mind, Sylvia has conversed with him for years. But Sylvia won't live forever, any more than any human does. And he's trapped inside her cave of bone, her hollow of skull. When she dies, so will he. Now Sylvia is

Of course he's got a part in it. But he also has a notion. He thinks he knows how he and Sylvia can step off the wheel of mortality altogether. All he has to do is convince her. One summer weekend in 1949—but not our 1949—the well-connected "Farthing set", a group of upper-crust English families, enjoy a country retreat. Lucy is a minor daughter in one of those families; her parents were both leading figures in the group that overthrew Churchill and negotiated peace with

Herr Hitler eight years before. Despite her parents' evident disapproval, Lucy is married—happily—to a London Jew. It was therefore quite a surprise to Lucy when she and her husband David found themselves invited to the retreat. It's even more startling when, on the retreat's first night, a major politician of the Farthing set is found gruesomely murdered, with abundant signs that the killing was ritualistic. It quickly becomes clear to Lucy that she and David were brought to the retreat in order to pin the murder on him. Major political machinations are at stake, including an

initiative in Parliament, supported by the Farthing set, to limit the right to vote to university graduates. But whoever's behind the murder, and the frame-up, didn't reckon on the principal investigator from Scotland Yard being a man with very private reasons for sympathizing with outcasts...and looking beyond the obvious. As the trap slowly shuts on Lucy and David, they begin to see a way out—a way fraught with peril in a darkening world. community, populated by over ten thousand children and a few hundred adult teachers from all eras of history, along with some handy robots from the far human future—all set down together on a Mediterranean island in the distant past. The student Simmea, born an Egyptian farmer's daughter sometime between 500 and 1000 A.D, is a brilliant child, eager for knowledge, ready to strive to be her best self. The teacher Maia was once Ethel, a young Victorian lady of much learning and few prospects, who prayed to Pallas Athene in an unguarded moment during a trip to Rome—and, in an instant, found

Meanwhile, Apollo—stunned by the realization that there are things mortals understand better than he does—has arranged to live a human life, and has come to the City as one of the children. He knows his true identity, and conceals it from his peers. For this lifetime, he is prone to all the troubles of being human. Then, a few years in, Sokrates arrives—the same Sokrates recorded by Plato himself—to ask all the troublesome questions you would expect. What happens next is a tale only the brilliant Jo Walton could tell. At

It's a miracle that when Girolamo visits the deathbed of Lorenzo "the Magnificent," the dying Medici is wreathed in celestial light, a surprise to everyone, Lorenzo included. It's a miracle that when Charles VIII of France invades northern Italy, Girolamo meets him in the field, and convinces him to not only spare Florence but also protect it.
