For many motorcyclists, the next best thing to riding or working on their bikes is reading Peter Egan's Cycle World columns. His conversational style and adroit language make his writing appeal to all types of riders.

The biggest, the rarest, the most powerful, the most expensive, and the most beautiful bikes on the planet, superbly photographed and lovingly described in great detail.

GSX-R600 (1997-2000)

This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines. Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.

Presents motorcycle road racing, providing simple explanations surrounding the sport including descriptions of famous races, the culture of racing, and brief career highlights of its legendary stars.
