We're in the midst of a digital media-making revolution--and the Canon Vixia G10 and XA10 camcorders are at the forefront. Blurring the line between "pro-sumer" and professional, the G10 and XA10 are sharper, cleaner, more compact, more portable, and boast more professional features than any prior palm-sized camcorder in their price range. This book is a comprehensive field guide to the concepts, strategies, equipment, and procedures for achieving the best results possible with Canon's top-of-the-line palm-sized camcorders. The guide focuses on the specific features of the Canon Vixia HF G10 and XA10, but users of other camcorders in the Vixia series, the Legria series (shooting PAL), and other camcorders will find a wealth of relevant information. With a high-definition palm-sized camcorder such as the Canon Vixia G10 or XA10, your potential is limited only by your imagination and your resourcefulness.

A top Soviet filmmaker discusses the art of making movies, the growing bureaucracy of the Russian film industry, and the purpose of cinema

Jarvis Langton is an unborn-again Christian living on the fringe. He's not big on life and has tried to finish his own twice. Still, most mornings, he quite likes to sun himself at Sydney's Royal Botanic Gardens. One morning he notices something winking at him from a nearby bush. When he investigates he finds the dead body of his friend, Lady; a Thai transvestite. Jarvis is not someone with his thoughts lined up in any reasonable order. It takes him a while to work out Lady must have been murdered. It takes him longer to decide he's going to find her killer - but once he does, the premonition that finding Lady's murderer will bring him his own end, happens in an instant. "Parable of the Forgotten is a first class, no rest-stop, brilliant, whirly gig!" Dr She Mackenzie Hawke, University Of Sydney.

Community colleges enroll half of the nation's undergraduates. Yet only 40 percent of entrants complete an undergraduate degree in six years. Redesigning America's Community Colleges explains how two-year colleges can increase their students' success rate quickly and at less cost, through a program of guided pathways to completion.
