Rick Soshensky presents a groundbreaking introduction to music ' s power to heal and transform, weaving a collection of uplifting case studies from his music therapy practice with ideas from spiritual traditions, philosophies, psychological theorists, and music therapy researchers. Soshensky investigates core concepts of a music-centered approach—the experience of music as a creative art with clients that has intrinsic value and supersedes diagnostic labeling and behavioral goal setting. The result is unique and inspirational text that leads us towards a deeper understanding and appreciation of music therapy and music ' s spiritual benefits.

The creator of the acclaimed Un-Master Class workshop also explores the special potential of group work, outlining the basics of his revelatory workshop that has transformed the music experience for participants the world over. Practicing, in Westney's view, is a lively, honest, adventurous, and spiritually rewarding enterprise, and it can (and should) meet with daily success, which empowers us to grow even more. Teachers, professionals, and students of any instrument will benefit from this unique guide, which brings artistic vitality, freedom, and confidence within everyone's reach.
