Winner of the Bancroft Prize The New York Times Book Review, Editor's Choice American Heritage, Best of 2009 In this vivid new biography of Abigail Adams, the most illustrious woman of the founding era, Bancroft Award-winning historian Woody Holton offers a sweeping reinterpretation of Adams's life story and of women's roles in the creation of the republic. Using previously overlooked documents from numerous archives, Abigail Adams shows that the wife of the second president of the United States was far more charismatic and influential than historians have realized. One of the finest writers of her age, Adams passionately campaigned for women's education, denounced sex discrimination, and matched wits not only with her brilliant husband, John, but with Thomas Jefferson and George Washington. When male Patriots ignored her famous appeal to "Remember the Ladies," she accomplished her own personal declaration of independence: Defying centuries of legislation that assigned married women's property to their husbands, she amassed a fortune in her own name. Adams's life story encapsulates the history of the founding era, for she defined herself in relation to the people she loved or hated (she was never neutral), a cast of characters that included her mother and sisters; Benjamin Franklin and James Lovell, her husband's bawdy congressional colleagues; Phoebe Abdee, her father's former slave; her financially naïve husband; and her son John Quincy. At once epic and intimate, Abigail Adams, sheds light on a complicated, fascinating woman, one of the most beloved figures of American history.

This lecture attempts to tell stories through music and about music, and about the music of several cultures and times, about its effect on human experience, about the instuments and their makers in oder to try and connect the present time with some of music's own roots, a cause for much reflection on the part of the lecturer.

In this inspiring biography, discover the true story of Harriet the Spy author Louise Fitzhugh -- and learn about the woman behind one of literature's most beloved heroines. Harriet the Spy, first published in 1964, has mesmerized generations of readers and launched a million diarists. Its beloved antiheroine, Harriet, is erratic, unsentimental, and endearing--very much like the woman who created her, Louise Fitzhugh. Born in 1928, Fitzhugh was raised in segregated Memphis, but she soon escaped her cloistered world and headed for New York, where her expanded milieuc stretched from the lesbian bars of Greenwich Village to the art world of postwar Europe, and her circle of friends included members of the avant-garde like Maurice Sendak and Lorraine Hansberry. Fitzhugh's novels, written in an era of political defiance, are full of resistance: to authority, to conformity, and even -- radically, for a children's author -- to make-believe. As a children's author and a lesbian, Fitzhugh was often pressured to disguise her true nature. Sometimes You Have to Lie tells the story of her hidden life and of the creation of her masterpiece, which remains long after her death as a testament to the complicated relationship between truth, secrecy, and individualism.

Over 300 quotes, from Puritan fathers to Ray Magliozzi of Car Talk, capture the essence of New England.

In 1971, there began in Rochester, N.Y., a series of hideous murders, cases that offered the starkest of contrast between good and evil: perfectly innocent victims, perfectly evil predators. The three victims were little girls, each named with the same first and last initial. Each, the legend said, had been dumped in a town that also began with that letter. The victims had all been last seen in an urban setting and their lifeless bodies were found raped and carelessly dumped along a rural roadside, strangled by ligature. Local girls with alliterative names were on high alert and told to be vigilant. The little ones didn't quite get it, but they sensed it, something in their mother's tighter grip on their little hand, or the way mom never relaxed when they were out of doors. The older ones looked at maps and guessed where their own lifeless bodies would be discovered in a ditch. No one wondered why the initials were important, what it all meant. They understood one thing: it was terrifying.
