Ilijas by Nebojsa Jovan Zivkovic is one of his most popular marimba solos, featuring Eastern European folk melodies in two distinct sections: a free-form folk melody written in an aria-like style, and an intensely catchy, heavily syncopated faster section.. This solo requires the ability to play static one-handed rolls while using the other hand to create flowing melodic lines, and some ultra ...

Cook ' s TEACHING PERCUSSION, which includes over seven hours of video footage, continues to set the standard in percussion instrument methods texts. Providing a comprehensive introduction to every aspect of percussion education, technique and performance, this enhanced third edition develops students' musical understanding and performance skills. The author's consistent and detailed philosophy introduces students to a refined teaching methodology--and gives them greater insight into the learning process by integrating contemporary concepts about experiential awareness learning. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

In Percussion Pedagogy, author Michael Udow offers a practical guide for students interested in teaching percussion as well as improving their technique. Udow first introduces the bouncing ball system, a technical analogy that teaches students to resist the effects of inertia. Throughout the book, the bouncing ball analogy develops into a core performance principle based on integrated motions resulting in refined tone quality and meaningful musicianship. The book applies this principle to several instruments including snare drum, timpani, marimba, vibraphone, multiple-percussion, tambourine and triangle, bass drum, cymbals, tam-tams, and a variety of Western concert and world percussion repertoire. In particular, Udow addresses the importance of coupling stroke types with stickings to set the foundation for precise rhythmic playing and expressive musicality. Chapters also focus on integrated rhythms, breath, and pulsed rhythms, anatomy and physiological health, psychological health, purposeful listening, and the importance of singing when practicing. Offering solutions to common performance problems, the book's many examples serve as a paradigm for future problem solving. A comprehensive companion website complements Udow's teachings with a wealth of video tutorials and listening examples.

Designed as a core text for college level courses in percussion methods and pedagogy, Teaching Percussion is a comprehensive, up-to-date introduction to teaching methodology and performance techniques. Now updated, Teaching Percussion helps students and performers develop musical understanding and performance skills on some fifty percussion instruments. The Second Edition includes coverage of new developments in world music instruments and performance. In addition, Norman Weinberg, cofounder of the PAS World Percussion Network, has contributed a discussion of electronic percussion and new technology. The outstanding exercises, musical examples, photographs, illustrations, practical advice, and bibliographies - popular features in the first edition - have been retained and enhanced. Teaching Percussion, Second Edition, is an invaluable resource for students, faculty, and performers alike.

The "Goldenberg book" has been used by generations of orchestral mallet players to develop their skills. As well as studies and etudes, this book includes excerpts of major orchestral repertoire for keyboard percussion instruments. This edition, edited by Tony Cirone, includes phrasings that were inherent in the music but not specifically written out. Stickings are also addressed: the original stickings are in uppercase letters, and the added stickings are in lowercase. This book is the primary source for keyboard percussion players to learn technique and orchestral repertoire.

A set of six solo works for vibraphone by one of today's leading concert and recording artists. Complete musical statements with limited technical demands for mallet players of various levels of ability. Titles are: * Mirror from Another * Vienna * Wind * Midnight Star * Looking Back * Trance

A collection of pieces from the Baroque music period arranged for marimba solo.

(Percussion). This book contains a lot of music, from musical etudes designed for beginning and intermediate players, to recital material appropriate for intermediate and advanced marimbists. It includes: examples taken from contemporary solo and chamber works, with commentary and performance tips; 50 studies to develop four-mallet technique in a musical way; 18 classic and contemporary solos for recitals, auditions or juries, written by Beethoven, Handel, Chopin, Debussy, Leonard Bernstein, Duke Ellington and others; and helpful guidelines for mallet selection, grip, strokes, tone production, rolls, stickings, phrasing and other important topics.
