World-renowned
economist Klaus

Get Free Guided The Market

Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work.

Get Free Guided The Market

Schwab argues that this revolution is different in scale, scope and complexity from any that have come before.

Characterized by a range of new technologies that are fusing the physical, digital and

Get Free Guided The Market

biological
worlds, the
developments are
affecting all
disciplines,
economies,
industries and
governments, and
even challenging
ideas about what
it means to be
human.

Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial

Schwab, is more
significant, and
its

ramifications
more profound,
than in any
prior period of
human history.

He outlines the
key technologies
driving this
revolution and
discusses the

major impacts

government,
business, civil
society and
individuals.
Schwab also
offers bold
ideas on how to
harness these
changes and
shape a better
future--one in
which technology

empowers people
rather than
replaces them;
progress serves
society rather
than disrupts
it; and in which
innovators
respect moral

opportunity to
contribute to
developing new
frameworks that
advance
progress.
