possible to define Cuba to the world and to itself -- yet not even he has been able to control the thoughts and dreams of his people. Those thoughts and dreams are the basis for what may become a post-Castro Cuba. To more fully understand the future of America's near neighbor, veteran reporter Eugene Robinson knew exactly

where to look -- or rather, to listen. In this provocative work, Robinson takes us on a sweaty, pulsating, and lyrical tour of a country on the verge of revolution, using its musicians as a window into its present and future. Music is the mother's milk of Cuban culture. Cubans express their fondest hopes, their frustrations, even their
