Spray the other end of the leather belt with water. Measure 3 inches in from the end and that is where you can mark your first hole. For me, I took a mechanical pencil and used the end to make an imprint where I was going to place the first hole. Then, I took out the hole punching tool and punched out that first hole.

Step One: Measure the circumference of where you plan to wear the belt, whether it will be on your waist, hips, or somewhere in between. Add about 6" to this length, to include hem allowance for around the belt buckle, to close the other end of the belt, and also for the belt flap to overhang a bit.

~~Make Your Own Fabric Belts - A Beautiful Mess~~

Measure your belt (mine was 3.5cm) and add 3x that measurement on to your template - so for my 3.5cm belt, I added 11cm at the top of my 30cm square, giving me a rectangle 30cm x 41cm. This will vary depending on your belt, obviously. Using the template cut yourself one rectangle of the fabric to your selected size.
