A Practical Guide Based on the 2008 National Electrical Code®! The third edition of Residential Wiring is a practical introduction to the general wiring principles, methods, installations, calculations, and service equipment used in 90% of dwellings. Covering actual construction practices for installing electrical systems in one- and two-family dwellings, the text combines in-depth instruction of 2008 NEC rules with detailed, hands-on information about residential wiring practices and full color illustrations to make this an accessible and reader-friendly textbook. Outlining the steps and precautions needed to install power wiring, residential smoke detectors, and systems covered in Article 800 of the NEC, the text addresses specific challenges room by room, including AFCI protection for bedrooms, small-appliance branch circuits for kitchen and dining rooms, and GFCI protection for bathrooms.

This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. & break;& break;Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. & break;& break;Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

Having this book in your pocket is just like having a real marque expert by your side. Benefit from Adrian Streater's years of 911 experience, learn how to spot a bad car quickly, and how to assess a promising one like a professional. Get the right car at the right price!
