information regarding both Christian and non-Christian beliefs about possession and the demonic. Elaine G. Breslaw draws on Native American, African, South American, and African-American sources, as well as the European and New England heritage, to illuminate the ways in which witchcraft in early America was an attempt to understand and control evil and misfortune in the New World. Organized into sections on folklore and magic, diabolical possession, Christian perspectives, and the question of gender, the volume includes selections by Cotton Mather, Matthew Hopkins, and Samuel Willard, among others; Salem trial testimonies; and commentary by a host of distinguished scholars. Together the materials demonstrate how the Protestant and Catholic traditions shaped American concepts, and how multicultural

American Horror Story: Coven, and the British program, A Discovery of Witches. No longer sweet, feminine, domestic, and white, these witches are powerful, diverse, and transgressive, representing an intersectional third-wave feminist vision of the witch. Featuring original essays from noted scholars, this is the first critical collection to examine witches on television from the late 2010s. Situated in the aftermath of the #MeToo movement, essays examine the reemergence and shifting identities of TV witches through the perspectives of intersectional gender studies, hauntology, politics, morality, monstrosity, violence, queerness, disabilities, rape, ecofeminism, linguistics, family, and digital humanities.
