The CONECTADOS Communication Manual includes standards-based activities designed for in-class use, with an emphasis on interpersonal communication. The program is composed of 12 chapters, which can easily be divided over semesters or quarters. Core information (thematic vocabulary, grammatical structures, and functional language) is integrated into manageable pasos. The end of each chapter in the Communication Manual is comprised of four sections, which the instructor can mix and match. Set around 12 German-speaking people and the worlds they live in, WELTEN focuses on the development of communicative competence and literacy through texts in various modalities. WELTEN helps students to acquire and practice functional language abilities while at the same time developing interpretive and analytical competencies and an appreciation of the aesthetic qualities of language. Through current, relevant, and meaningful materials, students learn to use language while seeing the world through the eyes of others, ultimately learning about themselves and the world they live in. With its innovative and integral video program, its contextualized and learner-centered presentation of grammar, and its unique selection of engaging texts from a broad range of genres, WELTEN brings a new approach to introductory German. SENDEROS approaches language learning as a student-centered, multi-faceted process that goes beyond the ability to understand, speak, read, and write in Spanish. With SENDEROS, students are encouraged to be active participants, not passive receptors, in the learning process. Throughout each chapter, students are regularly asked to think critically, participate in pair and group work, respond to readings, express their opinions, and thoughtfully consider the views of others. Although the focus of SENDEROS is building oral and written communication skills, the variety of material and activities provided within make it equally appropriate for courses that focus on contemporary culture or grammar review. SENDEROS also works well in bridge courses to develop reading strategies before taking upper level literature and civilization classes. The growth of Information and Communication Technology (ICT) has changed the dynamics of education, as self-directed learning, especially on mobile devices, is as accessible as ever. Despite the near infinite amount of information available for students outside of school, the classroom remains the most critical aspect of student's growth. Teachers now play crucial roles in engaging ICT's full potential to create an environment of meaningful learning to develop students' critical thinking skills. Preparing Foreign Language Teachers for Next-Generation Education concerns itself with the integration and study of new technologies in foreign-language education. Featuring theoretical and empirical chapters related to the confluence of teacher-education, teacher cognition, and innovative technologies, it provides engaging insight into foreign-language teachers' perceptions and the influence of those perceptions. This publication is quintessential to foreign-language teachers, administrators, policy makers, students of education, programmers, and developers.
