Books, books, books! Judy 's got books on the brain as she prepares for a totally RARE trivia competition. Has reading always been this

exciting? Judy Moody is in it to win it. Win the Book Quiz Blowout, that is. Judy and her brother, Stink, are two-fifths of the Virginia Dare Bookworms, and they 've been reading up a storm to prepare for Saturday 's face-off against second- and third-grade readers from the next town. Judy 's trying out all kinds of tactics, from hanging upside down like Pippi Longstocking to teaching herself to speed read *The Princess in Black*, and Stink has fashioned a cape of book trivia sticky notes to help him remember all the penguins in *Mr. Popper 's Penguins*. But when Judy, Stink, and their fellow teammates discover the other group has a fourth-grader (no lie!), they get a bit nervous. Are the Bookworms up to the challenge?

Effective science teaching requires creativity, imagination, and innovation. In light of concerns about American science literacy, scientists and educators have struggled to teach this discipline more effectively. *Science Teaching Reconsidered* provides undergraduate science educators with a path to understanding students, accommodating their individual differences, and helping them grasp the methods--and the wonder--of science. What impact does teaching style have? How do I plan a course curriculum? How do I make lectures, classes, and laboratories more effective? How can I tell what students are thinking? Why don't they understand? This handbook provides productive approaches to these and other questions. Written by scientists who are also educators, the handbook offers suggestions for having a greater impact in the classroom and provides resources for further research.
