no authors more effective than Nobel laureate and New York Times columnist Paul Krugman and co-author, Robin Wells. Here, Krugman and Wells' signature storytelling style and uncanny eye for revealing examples come together in an accessible, modular format to help readers understand how economic concepts play out in our world. Instead of having chapters of traditional length, this version covers the core concepts of economics in a series of brief modules, each focused on one topic and designed to be assigned in any order and read comfortably in one sitting. This new edition is more accessible than ever and includes SaplingPlus, a complete, integrated online learning system that supports students and instructors at every stage of learning--pre-class, in-class, and post-class.

Adapted by Paul Krugman and Robin Wells from their bestselling microeconomics textbook, *Microeconomics in Modules* is the only text for the principles of microeconomics course organized in the supremely accessible, highly effective modular format. Instead of chapters of standard length, the book covers the fundamentals of microeconomics in 45 brief (4-10 page) modules divided into 14 sections.

Microeconomics in Modules offers the best of what makes Krugman/Wells a classroom favorite (story-telling approach, engaging writing, fascinating examples and cases), in a format students and instructors will love. Extensive educational research shows that students absorb more from shorter reading assignments than longer ones. And with coverage in self-contained modules, instructors can assign specific topics without asking students to read entire chapters.
