Beautifully written and taking us into an exotic land, Karen Connelly's debut novel *The Lizard Cage* is a celebration of the resilience of the human spirit. Teza once electrified the people of Burma with his protest songs against the dictatorship. Arrested by the Burmese secret police in the days of mass protest, he is seven years into a twenty-year sentence in solitary confinement. Cut off from his family and contact with other prisoners, he applies his

acute intelligence, Buddhist patience, and humor to find meaning in the interminable days, and searches for news in every being and object that is grudgingly allowed into his cell. Despite his isolation, Teza has a profound influence on the people around him. His very existence challenges the brutal authority of the jailers, and his steadfast spirit inspires radical change. Even when Teza's criminal server tries to compromise the singer for his own gain, Teza befriends him and risks falling into the trap of forbidden conversation, food, and the most dangerous contraband of all: paper and pen. Yet, it is through Teza's relationship with Little Brother, a twelve-year-old orphan who's grown up inside the walls, that we ultimately come to understand the importance of hope and human connection in the midst of injustice and violence. Teza and the boy are prisoners of different orders: only one of them dreams of escape

and only one of them will achieve it—their extraordinary friendship frees both of them in utterly surprising ways.

Explores the life of Dr. Maung Maung (1925-94), scholar, soldier, nationalist, internationalist, parliamentarian, public servant, and pioneer amongst post-colonial journalists in Southeast Asia. His life spanned seven decades of political, economic and social turbulence in the country he loved and served, Myanmar.

The sacred sites of Burma are amongst the most beautiful and spectacular in all of Asia. However, the fame and sacredness of these holy places rests almost solely on the myths and legends that surround their founding and the origins of their relics. These Buddhist tales can arise and evolve with astounding speed and creativity drawing on a variety of sources ranging from local folklore to Sri Lankan chronicles. This book uncovers the evidence for and traces the development of these intricate myths across a wide spectrum of sacred sites ranging from Yangon and the Mon State in Lower Burma to Pagan and Mandalay in Upper Burma as well as considering the areas of Shan influence around Inle lake. The author illustrates how sacred sites can emerge with remarkable frequency even in our own time with only those that possess myths

catching the imagination of the Buddhist faithful having any chance of long term survival. This book represents an essential read for anyone interested in the development of Buddhism in its many aspects, be they its art, archaeology, history or belief.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

woman ' so bad that she could trail her wonderful apparel up and down Main Street, from the Elm Tree Bakery to the railroad tracks, without once having a man doff his hat to her or a woman bow. You passed her on the street with a surreptitious glance, though she was well worth looking at ' in her furs and laces and plumes. She had the only full-length mink coat in our town, and Ganz's shoe store sent to Chicago for her shoes. Hers were the miraculously small feet you frequently see in stout women. Written from a Tai/Shan perspective, the intricate and often unsettled realities that existed in the Shan States from early times up to the military coup in 1962 are described in a comprehensive

overview of the stresses and strains that the Shan princes endured from early periods of monarchs and wars, under British rule and Japanese occupation, and Independence and Bamar military regime. Part One covers chronological events relating them to the rulers, the antagonists, and the people and the continuing conflict in the Shan State. Part Two deals with the 34 Tai/Shan rulers, describing their histories, lives, and work. Included are photographs and family trees of the princes, revealing a span of Shan history, before being lost in the mists of time. The past is explained in order that the present political situations may be understood and resolved amicably between the Bamar government, the Tatmadaw, and the ethnic nationalities. "No external observer knows more about Myanmar's security and intelligence apparatus than Andrew Selth. In this book he presents an account of the structure and functions of Myanmar's deep state, along with a tale of personal ambition, rivalry and ruthless power politics worthy of John Le Carre. A thoroughly educative, entertaining and intriguing read." — Professor Michael Wesley, Dean, College of Asia and the Pacific, The Australian National University "Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar/Burma and its institutions. This work on the more recent aspects of the country's intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community, and probes the

social and institutional bases of the attitudes giving rise to that critical aspect of power. We are once again in Dr Selth's debt. This is required reading for serious observers of the Burmese scene." — David I. Steinberg, Distinguished Professor of Asian Studies Emeritus, Georgetown University "By lifting the lid on a pervasive yet secretive intelligence apparatus, Andrew Selth makes an outstanding contribution to Myanmar Studies. For scholars and practitioners alike, this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule." — Professor Ian Holliday, Vice-President (Teaching and Learning), The University of Hong Kong
