From the New York Times bestselling author of Brady vs. Manning and dean of football writers - a book that explores the many interesting facets to NFL quarterbacks and their relationships with their fathers. Tom Brady's father is an estate planner. Jim Harbaugh's father had a long career as a college coach. Archie Manning played fourteen years in the NFL and never made the playoffs, but his sons Peyton and Eli won a combined four Super Bowls. Joe Montana is considered by many to be the greatest quarterback of all time, but his two sons bounced around college football with limited success. Jameis Winston's father supported his family working overnight highway construction in Alabama. Derek Carr's father moved the family to Houston after Derek's older brother, David, was drafted by the Texans. MY FIRST COACH goes behind the scenes to explore the unique relationship between these and other quarterbacks and their fathers, as well as investigate various approaches to parenting through their stories. Can young athletes overcome helicopter parents? How did the kids with NFL aspirations deal with their fathers who'd already made it? What kind of pressure did they have to overcome? What kind of pressure did the father who succeeded put on his son to be an athlete? Would the expectations be lower and the results greater if the father was an attorney or doctor? Was it better for the fathers to be overbearing, or borderline disinterested? MY FIRST COACH tells the compelling, real-life stories of some of the country's most famous quarterbacks and how they took advantage of or overcame their relationships with their fathers.

Being a coach is a deeply rewarding profession, but even the best coaches encounter moments of uncertainty and doubt. In Coaching Stories: Flowing and Falling of Being a Coach, Karen Dean and Sam Humphrey intimately share their varied experiences as executive coaches in 48 stories - some where they were flowing and glorious, and others where they were falling and ashamed. Dean and Humphrey guide the reader through the journey from a novice to a master coach by exploring twelve distinct themes, underpinned by the four parts of Dean's 'Exceptional Achievement' framework: setting out, doing, integrating and being. Each chapter focuses on a different theme, presenting specific examples and stories from the authors' work and reflecting on their learning and development at each point. Dean and Humphrey expertly assess topics, including confidence, talent, purpose and fulfilment, by examining times where they performed effectively as well as those where they fell short. In each case they consider what they wish they had asked or known about in advance, and each story provides an insightful look at what being a coach is really like. Practical and accessible, the book concludes with a section on further reading and study, explaining relevant theories, models and frameworks. Coaching Stories: Flowing and Falling of Being a Coach will be a compassionate and pragmatic companion for coaches of all kinds, both in practice and in training. It will also be a valuable guide for other professionals seeking development, including internal coaches, managers in a coaching role, HR and L&D professionals and will be a useful text for academics and students of coaching and coaching psychology. Dean and Humphrey are award-winning authors and have written a number of articles for leading coaching publications.

Many years ago I was lucky enough to meet well known cricket Sports Psychologist Sandy Gordon. At that meeting Sandy indicated that it was important for all teams and team members to continue to look to improve in all they do. Later I was fortunate to attend a Junior Cricket meeting where Mike Russey spoke. Mike indicated that Sandy Gordon had impressed on the West Australian Team there was a genuine need for all to work together as a team. Sandy had suggested to Mike that he and the team needed to remember the following acronym: Together Each Achieve More The WISE quickly understand that there is a genuine need for all to continue to work to improve in all that is done. The WISE also better understand that so much more can be achieved when all in a TEAM work together. Over many centuries of human existence, the WISE have used these important ideals to achieve unbelievable and sustained SUCCESS. Many examples of these outstanding achievements have been included to provide impetus for the reader to apply WISDOM in all that is done.

In September 2008, Northern State University men's basketball coach Don Meyer stood on the brink of immortality. He was about to surpass the legendary Bobby Knight to become the all-time NCAA wins leader in men's basketball. Then, on a two-lane road in South Dakota, everything changed in an instant. In How Lucky You Can Be, acclaimed sports journalist Buster Olney tells the remarkable story of the successive tragedies that befell Coach Meyer but could not defeat him. Laid low by a horrific car accident that led to the amputation of his left leg below the knee, Coach Meyer had barely emerged from surgery when his doctors informed him that he also had terminal cancer. In the blink of an eye, this prototypical 24/7 workaholic coach—who arrived at the gym most mornings before 6 a.m.—found himself forced to reexamine his priorities at the age of sixty-three. A model of reserve, Coach Meyer had sacrificed much of his emotional life to his program. His wife, Carmen, felt disconnected because of his habitual reticence, while his three children—all now well into adulthood—had long had to compete with basketball for his attention. With sensitivity and skill, Olney shows how Coach Meyer mined his physical ordeal for the spiritual strength to transform his life. In the months that followed his accident and diagnosis, he reached out to family, friends, and former players in a way he had never been able to do before, making the most of this one last opportunity to tell those close to him how he felt about them—and in turn he received an outpouring of affirmation that confirmed how deeply he had affected others. Sustained throughout an often painful recovery by his love of basketball, he would return to the court once more—with a newfound appreciation for the game's place in his life. The inspirational story of a life renewed by unimaginable hardship, How Lucky You Can Be proves that it's never too late to start making changes—and reminds us that fortune can smile upon us even in our most trying hours.

It's the end of an era. I have produced high-energy, content-rich RockStar Marketing BootCamps for the past twelve years. At my first BootCamp I was blessed to have approximately 250 people in the audience. Over the years it continued to grow, and at my April 2019 event, we had more than 700 attendees.

When most people think of the celebrated greatness that is Coach Dan Gable, they think of an almost mythic intensity toward wrestling. Gable breathes and bleeds the sport, and faithfully applies lessons learned from both on and off the mat. Expanding upon Gable's first collection of stories, A Wrestling Life 2 goes a little deeper into the mindset and life events that have shaped the man, the wrestler, and the coach. Through stories funny, heartfelt, intense, and always engaging, Gable shares more about the life he has lead and what can be learned from those experiences. He goes on to detail what have come to be known as the Gable Trained principles that he follows to keep his life full of "wins," the revelations about how to cultivate success at the highest levels, and the reasons behind these steps for living well. A Wrestling Life spent two months on the New York Times sports bestseller list, and has become an instant classic of sports memoirs. A Wrestling Life 2 is sure to add to Gable's ever-growing legacy and entertain and inspire wrestling fans everywhere.
