Optoma Pk301 Pico Pocket Projector Manual

By comparison, the Optoma PK301 and its power supply together are about as light, as "just" the power adapter for my old LG. So it is really small and light, like an order of magnitude lighter than you might think. But is also at least an order of magnitude brighter than any other pico projector. When plugged in, the 50 lumens that it projects is the difference between a truly adequate viewing ...
