## Oracle iSupplier Portal Implementation Guide

Oracle iSupplier Portal enables suppliers to request changes to purchase orders when modifications are needed to fulfill an order. Suppliers can request changes during or after purchase order acknowledgement. In some cases, a supplier can only partially ship the quantity of goods ordered for a given date.

## iSupplier Portal Setup | OracleUG

Oracle iSupplier Portal is the enterprise application that structures all supplier communication through a secure internet-based portal. Phone calls, faxes, and e-mails with suppliers waste time, introduce errors, and create latency in your supply chain. Oracle iSupplier Portal, with its powerful platform for online collaboration, enables you and your suppliers to become more efficient.

Learn to build and implement a robust Oracle E-Business Suite system using the new release, EBS 12.2. This hands-on, real-world guide explains the rationale for using an Oracle E-Business Suite environment in a business enterprise and covers the major technology stack changes from EBS version 11i through R12.2. You will learn to build up an EBS environment from a simple single-node

Oracle 10g has become the most complex database ever created and Oracle tuning has become increasingly complex. This book provides a complete step-by-step approach for holistic Oracle tuning and it is the accumulated knowledge from tuning thousands of Oracle databases. Incorporating the principles of artificial intelligence, Oracle10g has developed a sophisticated mechanism for capturing and tracking database performance over time periods. This new complexity

has introduced dozens of new v\$ and DBA views, plus dozens of Automatic Workload Repository (AWR) tables. The AWR and its interaction with the Automatic Database Diagnostic Monitor (ADDM) is a revolution in database tuning. By understanding the internal workings of the AWR tables, the senior DBA can develop time-series tuning models to predict upcoming outages and dynamically change the instance to accommodate the impending resource changes. This is not a book for beginners. Targeted at the senior Oracle DBA, this book dives deep into the internals of the v\$ views, the AWR table
