Physical Science for grades 5 to 12 is designed to aid in the review and practice of physical science topics. Physical Science covers topics such as scientific measurement, force and energy, matter, atoms and elements, magnetism, and electricity. The book includes realistic diagrams and engaging activities to support practice in all areas of physical science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

For courses in DC/AC circuits: conventional flow The Latest Insights in Circuit Analysis Introductory Circuit Analysis, the number one acclaimed text in the field for over three decades, is a clear and interesting information source on a complex topic. The Thirteenth Edition contains updated insights on the highly technical subject, providing students with the most current information in circuit analysis. With updated software components and challenging review questions at the end of each chapter, this text engages students in a profound understanding of Circuit Analysis.

Focus on Pronunciation 1 gives beginning to high-beginning students the tools, tips, and techniques to help them speak English clearly and accurately. The variety of activities and accessible style makes learning fun. A five-part structure allows focused practice in individual sound areas: Vowels; Consonants; Syllables and Stress in Words; Rhythms; and Intonation. Features Clear explanations and diagrams make the text easy to use. Engaging activities, including games and high-interest listening and speaking tasks, guide students from controlled practice to communicative interaction. Self-study material and audio CDs offer students a wealth of practice outside the classroom.

Paired Passages for grade 5 offers pairs of nonfiction and fiction passages for students to compare and contrast. Aligned to state standards, students will read high-interest passages about topics such as Babe Ruth, Kwanzaa, Hanukkah, a Robert Frost poem, and more. Help your students meet rigorous college- and career-ready expectations by improving reading comprehension skills. Paired Passages helps students meet and exceed reading standards by teaching them to compare and contrast fiction with nonfiction, fiction with fiction, and nonfiction with nonfiction. When students finish reading a pair of passages, they will rely on the text to complete the accompanying questions and activities. The Paired Passages series for grades 1 to 6 improves reading comprehension skills by providing passages for students to compare, contrast, and synthesize. Filled with content that appeals to today's learners, the passages represent a variety of genres such as literature (narrative, poetry, realistic fiction, and more), social studies, and science. Each topic features a pair of passages and is followed by two pages of text-dependent questions and activities. By using this research-based instructional approach, you are preparing students for a successful academic journey this year and for years to come.

It can be surprising which objects float and which don't. An apple floats, but a ball of aluminum foil does not. If that same ball of foil is shaped into a boat, it floats! Why? And how is it possible that a huge ship made of steel can float? Answering these questions about density and flotation is David A. Adler's clear, concise text, paired with Anna Raff's delightful illustrations. Activities that demonstrate the properties of flotation are included.

Your Total Solution for Kindergarten will delight young children with activities that teach position words, letter recognition, vowel sounds, making predictions, numbers 0 to 20, sequencing, opposites, graphing, telling time, and more. Your Total Solution provides lots of fun-to-do practice in math, reading, and language skills for children in prekindergarten to second grade. Colorful pages teach numbers, counting, sorting, sequencing, shapes, patterns, measurement, letters and sounds, basic concepts, early writing skills, vocabulary, and more. Loaded with short, engaging activities, these handy workbooks are a parent's total solution for supporting learning at home during the important early years.
