Expanded and up-to-date-the ultimate guide that explores meaning and philosophy of all six seasons of Lost Lost is more than just a popular television show; it's a complex examination of meaningful philosophical questions. What does good versus evil mean on the island? Is it a coincidence that characters John Locke and Desmond David Hume are named after actual philosophers? What is the ethics of responsibility for Jack? An action-adventure story with more than a touch of the metaphysical, Lost forces viewers to ask difficult questions of themselves just as the story asks difficult questions of its characters. Ultimate Lost and Philosophy helps you explore the deeper meaning and philosophical questions hidden within every complex twist and turn in the historic show's entire six-season run. Includes every season of Lost, including 2010's final, highly anticipated season Connects events on the show to core philosophical issues such as truth, identity, and morality Explores a host of intriguing topics such as time travel, freedom, love, and loss For fans of Lost who are interested in what the show reveals about ourselves and the human condition, Ultimate Lost and Philosophy is an entertaining, informative, and enlightening resource.

To London society, the Inferno Club is notorious for its scandalous pursuits. In private, these warriors would risk their lives for king and country. Sebastian, Viscount Beauchamp, lives by a code of honour, and now honour dictates he must marry Miss Carissa Portland. He has no regrets over stealing a kiss from her - a fitting punishment for putting her delectable nose where it didn't belong. But now, caught in a compromising situation, he knows he must make her his bride. Carissa is not a gossip - she's a 'lady of information.' But even she can't flaunt Society, and while her head tells her that Beau's a notorious scoundrel, her heart - and her body - are captivated by his dangerous charm. But when Carissa next goes snooping, the secrets she uncovers about the Inferno Club may prove even more hazardous than falling in love with your own husband. The fifth novel in a sumptuous new romance series by New York Times bestselling author Gaelen Foley will make you blush with delight.

“If online dating can blunt the emotional pain of separation, if

adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it's also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?" It's the mother of all search problems: how to find a spouse, a mate, a date. The escalating marriage age and declining marriage rate mean we're spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It's no wonder that a third of America's 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what's possible, are

reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution of the 1960s and '70s, the digital revolution is forcing us to ask new questions about what constitutes "normal": Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater's subjects wonders, "What's the etiquette here?" Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us? Should we trust an industry whose revenue model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry's rise from ignominy to ubiquity—beginning with its early days as "computer dating" at Harvard in 1965—Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives.

"In its depiction of ordinary Japanese, *The New Sun* is both an indictment of Japanese militarism and a plea for American understanding of "the enemy." Told mainly through Yashima's powerful artwork, it is a personal and political text of a rural doctor's son who becomes an anti-imperialist artist-activist. Yashima recounts how his wife and their peers were imprisoned and brutalized by the Tokkoku, Japan's secret police, often for months without being formally charged or knowing when they would be released. Despite the arbitrary deprivations and cruelties of life in prison and in imperial Japan, Yashima retains faith in the regenerative possibilities of art and in a future without tyranny."--BOOK JACKET.
