This two volume handbook provides a comprehensive examination of policy, practice, research and theory related to English Language Teaching in international contexts. More than 70 chapters highlight the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second language acquisition and pedagogy. The Handbook provides a unique resource for policy makers, educational administrators, and researchers concerned with meeting the increasing demand for effective English language teaching. It offers a strongly socio-cultural view of language learning and teaching. It is comprehensive and global in perspective with a range of fresh new voices in English language teaching research.

Capitalising on developments in the field over the past decade, Riddles at work provides an up-to-date microcosm of research on the early medieval riddle tradition. The book presents a wide range of traditional and experimental methodologies. The contributors treat the riddles both as individual poems and as parts of a tradition, but, most importantly, they address Latin and Old English riddles side-by-side, bringing together texts that originally developed in conversation with each other but have often been separated by scholarship. Together, the chapters reveal that there is no single, right way to read these texts but rather a multitude of productive paths. This book will appeal to students and scholars of early medieval studies. It contains new as well as established voices, including Jonathan Willcox, Mercedes Salvador-Bello and Jennifer Neville.
