The MAP-TV Guide to film and television collections in Europe provides detailed information on almost 2,000 sources and archives of film and television in over forty European countries. This authoritative volume includes: the title listing of each collection both in English and the local language; research information; a subject and keyword index; an introduction to the collections in each country. This work will be of importance to all film researchers, production companies, film makers, archivists and reference librarians.

At a whopping 1,600 pages, with some 35,000 of the greatest movies ever made, this encyclopedia by the editors of TV Guide's award winning, world-renowned Cinebooks Database is simply indispensable. Die-hard movie buffs and the merely curious will both be thrilled at how easily they'll find the answer to any question they have: everything is cross-referenced, including indexes to the actors, the directors, and the films themselves (also arranged by star ranking). Independent and foreign films appear along with Hollywood favorites, and all the movies receive far more in-depth reviews than in any other guide to cinema. Each generous entry includes complete cast listing, detailed plot synopses, exhaustive production credits, musical score information, lists of Oscar(TM) nominees and winners, and much more. Millions of fans of TV Guide, the world's most widely read weekly publication with 30 million loyal readers, will want to own this!

Whether you ' re a film fanatic or just want to see a bit of Hollywood in your neighborhood. On Location: A Film and TV Lover ' s Travel Guide is the quintessential resource for visiting the locations of your favorite films or television series. Add this book to your carry-on or toss it into your glove compartment and you ' re ready to see some of the iconic settings from the silver screen up close. On Location: A Film and TV Lover's Travel Guide also makes a perfect gift for road trips or film trivia lovers!

Are you an associate producer who needs to juggle projects and vendors while keeping on top of the latest trends and formats? Or an independent filmmaker who can't afford a misstep in the crucial postproduction phase? Take a step back and get a clear overview of the process. This guide will show you how to navigate each step in taking a TV or film project from production to final delivery. Start by getting a handle on the critical issues of budgets and schedules. From there, you'll learn the smoothest way to manage dailies, sound, editing, and completion. Detailed instructions and checklists for film, video, and High Definition procedures will teach you new ways of doing things and help you avoid costly errors. The second edition is fully updated and information-packed. There is extensive new material on high definition as it affects dailies, editing, and delivery. The chapter on the film laboratory has been expanded further to include discussions on troubleshooting film damage and YCMs, which are so important in maintaining film assets. The latest information on film restoration, digital technologies, acquisitions, and a chapter on what's on the horizon round out the update.

The updated third edition of this popular book offers a clear and detailed overview of the postproduction process, showing readers how to manage each step in taking a film, TV, or media project from production to final delivery, from scheduling and budgeting through editing, sound, visual effects, and more. Accessibly written for producers, post supervisors, filmmakers, and students and extensively updated to address current digital and file-based industry practices, The Guide to Managing Postproduction for Film, TV, and Digital Distribution helps the reader to understand the new worlds of accessibility, deliverables, license requirements, legal considerations, and acquisitions involved in postproduction, including the ins and outs of piracy management and archiving. This edition addresses the standards for theatrical and digital distribution, network, cable and pay TV, as well as spotlights internet streaming and various delivery methods for specialty screenings, projection large format (PLF), and formats including 3D, virtual reality and augmented reality.
